I am really glad you chose to use the name Judas Iscariot, because I am feeling it his fitting for you.

Let me say it very clearly because I feel you are not getting what I have been saying. Jacob Harmon is not a coach at Calvary Chapel High School, nor will he be if I have anything to do with it, Jacob Harmon quit as Coach, and we excepted that. Sal Garcia is our Wrestling Coach. Jacob may be coaching the Kids Club, but it is independent of the school. We have nothing to do with that, and if you have any questions you should talk to the Church. Please do not e-mail me again, unless you are willing to be a man about it and give me your name, I find it very tiring dealing with people who are hiding behind names, even if the name is fitting for them in some way. You truly are a Judas Iscariot and you should be ashamed of yourself. the Law in America (obviously you forgot this in all your learning) Everybody as a right to face their accuser, an action that you are willing to not allow Jacob Harmon. Plus concerning all the information you have given us, I am fully aware of and this is only confirmation that Jacob Harmon will not be a Calvary Chapel High School Coach. Judas Iscariot, we are doing all we are required todo to protect the students of our school. However you and your tedious and taxing e-mails and long as with dealing with this both people like you and Jacob Harmon have totally drained me of the love of the beautiful sport of wrestling, thank you very much for bring the sport in to disrupt and taking the joy of it from my life, hope you guys pat yourself on the backs. Thank you also for ruing it for me, my family, especially my boys who will never step into a wrestling room again, because people like yourself who will not give me your name and sit down with me like a man and discuss it. Makes mw think you are not a man, but one of my students, as this is how I expect and have seen them act.

Now take it from me, go away and leave me alone, Jacob is a friend of mine, but he as lost the right to coach at my school, and there is nothing else I can do so grow some manly parts and be respectful to my request, unless you want to meet fora cordial conversation face to face, and I will keep it confidential as well. I just need you to realize that Sal Garcia is a great coach and I support him 100% as our coach and only Coach for the High School.

Kenny Wood,
A man who does not hide behind hideous names.

Greetings, I am now contacting you for the 3rd time due to new discoveries more chaos from Coach/Pastor Jacob Harmon. Again I wish for my identity to remain anonymous. The reason I choose to be discreet is honestly my concerns before have gotten back to Jacob from my previous emails to you. So for the safety of my family and myself its best that all communications. I have sent a couple emails to several administrators in effort to ensure the safety of children and Coach Jacob Harmon. However nothing has been done. So I will continue to contact you with my concerns. In response to my prior emails going back and forth it was said that Jacob was no longer working at the school That couldn't be farther

from the truth. I have pictures of Jacob actively involved with the Calvary Chapel home school program. If you walk by the Charis Bldg at 3232 West MacArthur Blvd, you are able to see Jacob Harmon Coaching his teaching his home school athletics program. So regardless what liability is where the safety of the kids on Calvary Chapel Church property is the concern. I am making another request that Calvary Chapel get Coach Jacob Harmon help. Coach Jacob Harmon is a great guy deep down inside, however when you have a guy around kids that threatened to kill himself... I think the correct course of action is to #1 recognize that this is a cry for help, #2 keep that person as far away from kids as possible, and #3 Show him that you genuinely care. The chaos with Jacob Harmon continues... In Feb 19th of 2016, Pastor, Coach and Teacher Jacob Harmon was arrested and charged with Driving Under the Influence, at the time of his arrest he was at a BAC of 0.17, which is double the legal limit while operating a vehicle that could have killed my child or yours. Case# 16WM03730, and Coach Jacob had a court appearance today April 13th to adhere to these criminal charges. So my question to you is when is enough, enough? So as you can see Coach Jacob has demons and this could be due to problems in his personal life or his shortcomings as a coach and pastor, however the kids come first. The children must be protected at all cost. We watched him tear of his shirt preaching in anger and in pain to kids in Church. Jacob Harmon also started an Adult Class labeled "Violent Social Hour." He was also successful in planting a seed in several young minds that contemplating suicide is ok. Now he is being charged with a DUI. What kind of message are you sending to the kids. Coach and Pastor Jacob Harmon must be removed in all capacities, especially where kids are involved. What concerns me the most is that Calvary Chapel Church administrators and Calvary Chapel School administrators continue to manipulate their involvement with Jacob Harmon at the expense of the safety of children. He has clearly displayed psychotic tendencies and he now is a criminal. I ask for that for the sanctity and values in which this congregation was built on please remove Jacob Harmon from further contact with children and dis-empower Jacob from representing Calvary Chapel Ministries etc. till he gets help. This is a lawsuit waiting to happen. Here are things I'm certain of... Jacob has a complaint file a mile high Jacob has openly admitted to children that he's contemplating suicide. Jacob is an alcoholic Jacob is a criminal who is actively on trial At one point you need to cut your losses. - A Concerned Member of Calvary Chapel Ministries
